RESPIRATORY AIRLINE RANGE

Headtops and hood options

Headtops and hood options

As part of our continuous product development, RSG is introducing a range of T-AirLine headtops for use with the new T-AirLine Airflow Regulator.

T-AIR 1000 M
Part # 614050

- For pharmaceutical, paint spraying or light chemical applications
- Hood made of Microporous film laminate with overpressure valve
- Includes RSG unique airflow indicator for low flow warning
- Easy adjustable head harness with ratchet
- Chemical resistant PETG visor
- Comfortable SMS neck seal
- Includes RSG unique airflow indicator for low flow warning

EN14594 CLASS 4A
NPF 2000

T-AIR 1000 CHEM1
Part # 614051

- Provides good protection in waste disposal and chemical spill applications
- Hood made of HDPE barrier film laminate with overpressure valve
- Includes RSG unique airflow indicator for low flow warning
- Easy adjustable and reusable head harness with ratchet
- Chemical resistant PETG visor
- Includes RSG unique airflow indicator for low flow warning
- Comfortable SMS neck seal

EN14594 CLASS 4A
NPF 2000

T-AIR 1000 CHEM3
Part # 614052

- High hazardous chemical, petrochemical environments and hazardous waste disposal applications
- Hood made of Multi-layer composite material with EVOH film barrier with exhalation valve
- Includes RSG unique airflow indicator for low flow warning
- Easy adjustable and reusable head harness with ratchet
- Chemical resistant PETG visor
- Comfortable SMS neck seal

EN14594 CLASS 4A
NPF 2000

T-AIRVISOR
Part # 614100

- For grinding, paint spraying, pharmaceutical or light chemical handling
- Large viewing area, chemical and mechanical resistant visor
- Easy removal disposable visor system
- Possibility to flip up visor
- Comfortable elastic cotton face seal
- Includes RSG unique airflow indicator for low flow warning
- Easy adjustable head harness with ratchet

EN14594 CLASS 3B
NPF 500

AIRLINE AIRWELD
Part # 614260

- Respiratory (EN14594) and eye protection (EN175B)
- High quality ADF lens with 4 sensors, 9-13 variable for welding / grinding, optical class 1/2/1/1
- Easy adjustable head harness with ratchet
- Strong and flexible PE breathing hose
- Comfortable easy to adjust airflow

EN14594 CLASS 3BA
NPF 500

AIRLINE AIRWELD
Part # 614200 / 614201

- Respiratory (EN14594) and eye protection (EN175B)
- The T-AirWeld 500 can be equipped either with a fixed shade welding lens flip up or ADF
- Optional ADF lens with 2 sensors, 9-13 adjustable for welding / grinding, optical class 1/3/1/2
- Viewing area of 96 x 42 mm
- Adjustable head harness with ratchet
- Strong and flexible PE breathing hose
- Comfortable, easy to adjust airflow regulator

EN14594 CLASS 3B
NPF 500

UNIQUE AIRFLOW INDICATOR

- The Unique RSG airflow indicator provides optical indication and warning for low flow
- In case of any air supply problems (<170l/min) the user will be warned immediately

AIRLINE FILTER UNIT

Part # 600161 / 600162 / 600163 / 600164

- Breathing Air according EN12021:1999 offering clean, particle and oil free air
- Wall or floor mounted to suit 2 and 4 users
- 2 stage high dirt holding capacity 0.01 micron rated filter to remove particles and oil aerosol to 0.003 mg/m3
- Activated carbon filter to remove odours and vapours

T-AIRLINE REGULATOR

Part # 661368

- Slim, safe and simple to operate
- Precisely adjustable airflow (between 180-350 litres)
- Supplied with in-line charcoal filter, for taste and odour removal for improved user comfort and performance
- CEJN nipple, HDPE breathing hose, 40mm black PE belt
- EN approved with all RSG T-AirLine hoods according EN14594 class 3B/4A

HOSE OPTIONS

Part # 661250 / 661252 / 661253

- Tested and approved with T-AirLine Filter Units, Regulators and all T-AirLine headtops
- All hoses fulfil the test procedures of the EN14593 & EN14594:2005 class A and B
- Fitted with CEJN double action safety coupling and nipple for ease of use and safe (dis)connection
- Range of Light duty PVC plastic hoses, 10 and 20 meter and Heavy duty anti-static, heat resistant and flame retardant chemical resistant rubber hoses, 10, 20 and 30 meter
- Flexible spiral PU hoses in 2, 4, 6 and 8 meters
